Reason for Indicating Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: Upon searching a variety of databases, the examiner respectfully submits that the following claim language is not taught by the prior art in conjunction with other recited limitations of its claim: "receiving a credit amount associated with the engineering drawing job from a manager, the credit amount being assigned to the draftsman that performed the engineering drawing job; and reporting logic coupled to the database producing a first report identifying each fiber splice drawing record assigned to the draftsman, the first report containing a number of hours logged by the draftsman on the engineering drawing job identified by the fiber splice drawing record; producing a second report identifying each completed fiber splice drawing record assigned to the draftsman; producing a third report identifying each fiber splice drawing record assigned to a facility of draftsmen; and producing a fourth report identifying each completed fiber splice drawing record within a defined geographical region, wherein a report is produced in response to a selection of the report via an interface option" recited in claim 1; "assigning credit for the engineering drawing job based upon input from a manager via one of the graphical user interfaces comprising a third graphical user interface, the credit being assigned to the draftsman that performed the engineering drawing job;

outputting a first report identifying each fiber splice drawing record assigned to the draftsman, the first report containing a number of hours logged by the draftsman on the engineering drawing job identified by the fiber splice drawing record; outputting a second report identifying each completed fiber splice drawing record assigned to the draftsman; outputting a third report identifying each fiber splice drawing record assigned to a facility of draftsmen; and outputting a fourth report identifying each completed fiber splice drawing record within a defined geographical region, wherein a report is produced in response to a selection of the report via an interface option” recited in claim 9; and “assigning credit for the engineering drawing job based upon input from a manager via one of the graphical user interfaces comprising a third graphical user interface, the credit being assigned to the draftsman that performed the engineering drawing job; outputting a first report identifying each fiber splice drawing record assigned to the draftsman, the first report containing a number of hours logged by the draftsman on the engineering drawing job identified by the fiber splice drawing record; outputting a second report identifying each completed fiber splice drawing record assigned to the draftsman; outputting a third report identifying each fiber splice drawing record assigned to a facility of draftsmen; and outputting a fourth report identifying each completed fiber splice drawing record within a defined geographical region, wherein a report is produced in response to a selection of the report via an interface option” recited in claim 17.

Therefore, all pending claims 1 – 4, 6, 9 – 12, 14, 17 – 20, and 22 are hereby allowed.
